RICHMOND INSTITUTE

Learn & Earn

FROM THE COUNTRY HEAD'S DESK

September has been a month of achievement, celebration, learning, and new possibilities at Richmond Institute.

We proudly celebrated students who completed their professional training in Digital Marketing, IT, Web Development, Hospitality Management, Chef Training, and Culinary Arts, marking an important milestone in their professional journeys.

We also honoured the Intermediate toppers of the Board of Intermediate and Secondary Education Faisalabad, recognising their outstanding academic performance with cash prizes.

Another NAVTTC batch successfully completed its training journey and appeared in its final assessment, marking another important step in their skills development.

On 16 September, Richmond Institute hosted an engaging Student Session with Mr Manzoor Ahmad, giving students the opportunity to gain practical insights and learn from professional experience.

September also brought creativity to our campus, as our Fashion Designer, Laiba, transformed the Richmond Fashion Wall, adding a fresh identity to the Fashion Design Department at Richmond Institute of Higher Education.

From achievement and learning to creativity and opportunity, September has been another month of progress.
We celebrate achievement. We encourage curiosity. We create opportunities.

Bushra Bajwa

EDITOR'S NOTE

September has given us plenty to celebrate.

This month brought together some of the things that make Richmond Institute special: achievement, learning, professional development, creativity, and opportunity.

We celebrated our professional training graduates, recognised the academic excellence of BISE Faisalabad Intermediate toppers, and saw another NAVTTC batch complete its final assessment.

On 16 September, our students also benefited from an insightful session with Mr Manzoor Ahmad, gaining practical guidance and valuable professional perspectives.

Meanwhile, creativity took centre stage at RIHE as Laiba redesigned the Richmond Fashion Wall, adding greater character and visibility to our Fashion Design Department.

Every month tells a different Richmond story.
This month, it was about achieving, learning, creating, and preparing for what comes next.

Monthly Highlights

Celebrating Our Professional Training Graduates

September marked an important milestone as we celebrated students who successfully completed programmes in Digital Marketing, IT, Web Development, Hospitality Management, Chef Training, and Culinary Arts

Their graduation represents more than completing a programme. It reflects dedication, learning, practical development, and preparation for the professional world.

One course completed. A whole new journey ahead.

Celebrating Academic Excellence

Richmond Institute proudly hosted a celebration honouring the Intermediate topper of the Board of Intermediate and Secondary Education Faisalabad

The outstanding students were recognised for their academic achievements and awarded cash prizes in appreciation of their success.

The occasion celebrated hard work and determination while inspiring other students to aim higher.

Achievement deserves recognition. Excellence deserves celebration.

Another NAVTTC Batch Reaches the Finish Line

Another NAVTTC batch successfully completed its training and appeared in its final assessment

The milestone marked the culmination of dedicated learning, practical preparation, and skills development throughout the programme.

Another assessment completed. Another group ready for the next chapter.

Student Session with Manzoor Ahmad

16 September 2026

On 16 September 2026, Richmond Institute successfully organised an engaging Student Session with Mr Manzoor Ahmad.

The session gave students an opportunity to learn beyond the traditional classroom through practical guidance, meaningful discussion, and real-world professional insights.

It was an enriching experience that encouraged students to broaden their perspective and think confidently about their future.

Some of the most valuable lessons begin with a conversation.

Fashion Meets Creativity at RIHE

Creativity took centre stage as our Fashion Designer, Laiba, transformed the Richmond Fashion Wall at Richmond Institute of Higher Education.

The newly decorated wall brings a fresh visual identity to the space while helping showcase the Fashion Design Department.

It is another reflection of how creativity continues to shape the Richmond environment.

Fashion is expression. Design is imagination. Creativity makes an idea visible.

What's Happening at Richmond?

September has been a month where achievement took many forms.

Some students celebrated graduation, others completed their final assessments, while others were recognised for outstanding academic results or gained new perspectives through professional interaction.

Different journeys. Different achievements. One Richmond community.

BEYOND THE CLASSROOM

Learning Through Experience

Education becomes more meaningful when students can connect classroom learning with professional realities.

Practical training, assessments, industry exposure, and professional sessions all contribute to developing confident and capable graduates.

At Richmond Institute, we encourage students to ask not only:

"What have I learnt?"

but also:

"What can I do with what I have learnt?"

Upcoming Events

RICHMOND INSTITUTE

Learn & Earn

October is set to bring new learning opportunities and an exciting academic beginning at Richmond Institute. The month will feature a Digital Marketing & SEO Workshop in Faisalabad, offering participants practical insights into the rapidly evolving digital landscape.

October will also mark the start of classes at Richmond Institute of Higher Education (RIHE), opening a new chapter for students as they begin their higher education journey. With professional development and academic excellence taking centre stage, October promises an exciting start to the new academic month at Richmond.

What's Trending in Careers

Skills That Take You Further

The modern workplace increasingly values individuals who combine qualifications with practical skills.

Communication, digital literacy, technical expertise, creativity, adaptability, professionalism, and industry awareness all contribute to career development

A qualification can open a door. Skills, confidence, and experience help you step through it.

September was a month of achievement, recognition, learning, and creativity.

We celebrated graduates, recognised academic excellence, completed another NAVTTC assessment journey, welcomed students to an insightful session with Mr Manzoor Ahmad, and continued creating spaces where creativity can thrive

Every achievement adds to the Richmond story.

Every student brings a story of their own.

At Richmond Institute, the next chapter is always waiting to be written
